COLOR CODE CHART		
DASH	UC-CSF SIZE	COLOR
-8	UC-CSF-8	SILVER/BLACK
-10	UC-CSF-10	RED/BLACK
-12	UC-CSF-12	BLUE/BLACK
-16	UC-CSF-16	TEAL GREEN/BLACK
-20	UC-CSF-20	YELLOW/BLACK
-24	UC-CSF-24	ORANGE/BLACK
-32	UC-CSF-32	BLACK/BLACK

FOR MANY YEARS NOW, THE HYDRAULIC INDUSTRY HAS BEEN CHALLENGED WITH KEEPING SYSTEMS CONTAMINATION FREE. WHEN COMPONENTS SUCH AS PUMPS, CYLINDERS OR VALVES ARE REMOVED FROM THE HYDRAULIC SYSTEM, THE OIL IS THEN OPEN TO CONTAMINANTS. OTHER ISSUES OCCUR WHEN ATTACHMENTS ARE ADDED OR REMOVED FROM CONSTRUCTION EQUIPMENT, SUCH AS HYDRAULIC BREAKERS, GRAPPLES, SHEARS, ETC... THUS LEAVING THE OIL SUSCEPTIBLE TO DIRT AND CONTAMINANTS, WHILE ALSO RISKING THE ENVIRONMENT TO OIL SPILLS

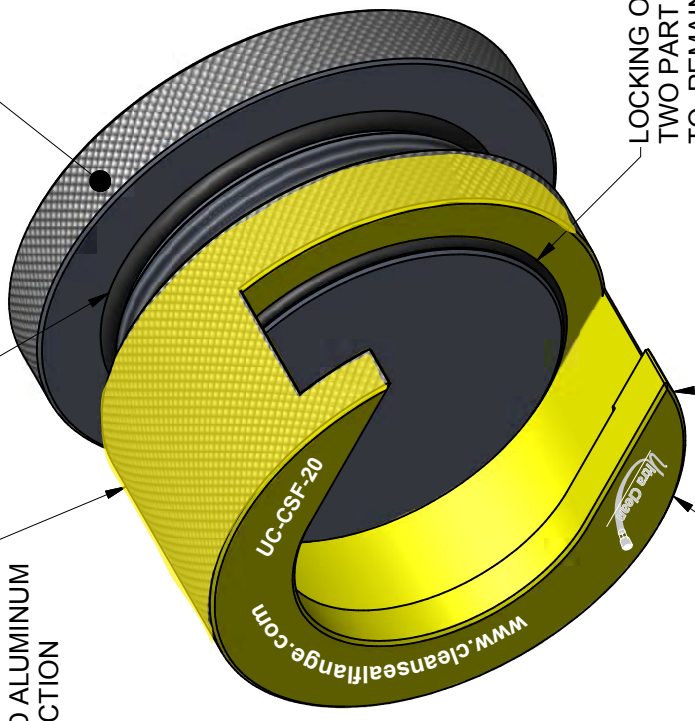

HENCE THE CLEAN SEAL FLANGE WAS BORN! AN INNOVATIVE TOOL, TO SIMPLY AND QUICKLY KEEP OIL IN AND DIRT OUT! COLOR CODED FOR QUICK IDENTIFICATION. UNIVERSAL FITMENT FOR SIZES -8 TO -32 FLANGES. DESIGNED TO WITHSTAND THERMAL EXPANSION PRESSURES.

LARGE KNURLED GRIP SURFACE FOR INCREASED TIGHTENING TORQUE

ANTI-JAMMING ORING PERMITS EASE OF USE

6061 HIGH TENSILE MACHINED ALUMINUM CONSTRUCTION

LOCKING ORING, PERMITS TWO PART CONSTRUCTION TO REMAIN ASSEMBLED

COLOR CODED ANODIZED FINISH FOR EASY SIZE IDENTIFICATION

UNIVERSAL DESIGN FOR USE ON SAE, CAT, & KOMATSU STYLE FLANGES

SPANNER HOLES OFFER ABILITY TO APPLY INCREASED TORQUE

EASY REMOVAL OF SPARE SAE ORINGS & CAT D-RING
